PROFILE

Experienced software developer with a passion for creating innovative and generic solutions that are reusable across various projects being built for different clients. Proficient in multiple programming languages and frameworks, I specialize in Front-end development with familiarization to back-end development. Skilled in problem-solving and collaborative teamwork, have a proven track record of delivering good quality work on time and always eager to learn and adapt to new challenges.

PROFESSIONAL EXPERIENCE

10/2021 – 07/2023
Noida, Uttar Pradesh

Application Engineer

Newgen Software Technologies Limited

- Created procedures in Microsoft SQL Server for user input validation for OmniScan (Newgen's own product).
- Worked on document generation system that is now used as a generic document generation solution by various implementation teams across the whole organization.
- It was first used in project built for HDFC Bank which was a huge success which displayed the potential of this system and showcased the features which were built from scratch by me.
- Worked on technologies like Java, SQL (Microsoft SQL Server, PostgreSQL), HTML, CSS, JavaScript.

07/2023 – present
Noida, Uttar Pradesh

Senior Software Engineer

Newgen Software Technologies Limited

- Overlook Document Generation System and add new features and enhancements to make it more scalable and easy to use according to request of implementation teams.
- Co-ordinate with various teams to help them to use this system and provide quick solution to the problems faced by them.
- Optimized code base for Document Generation System to greatly improve the time taken by the document generation process when system is under load.
- Eliminated security threats from codebase.
- Also work on IBPS (Newgen's product) for CLOS Accelerator project that is used as a generic platform for Corporate landing projects built by various implementation teams.
- Migrated CLOS Accelerator project from SQL Server environment to Oracle Database environment to cater the requirement of teams that work in Oracle Database environment.
